

TAKE DRUG RING SUSPECTS IN SO. S. F.

ARREST OF THREE COLORED MEN
AND ONE WOMAN BELIEVED TO
HAVE BROKEN RING THAT SOLD
DRUGS THROUGH BAY REGION.

By the arrest in South San Francisco Monday evening of three men and a woman, all colored, the police believe they have broken up a dangerous drug ring that had operated among the colored people of the bay region. The arresting posse was headed by Chief of Police Cavalier of Burlingame, and included Constable James Wallace and Officer Henry McGraw of South San Francisco, Officers Oliphant and Jack Theurer of Burlingame and Chief of Police Hirschey of Hillsborough.

The arrests were made at a house on Division street, between Grand and Miller avenues. The names of the four arrested are James Troutman, Claude Williams, William Akridge and Mildred Wilson. Akridge, according to the police, is an ex-convict now on parole.

The trail that led to the arrest was picked up in Burlingame last week after the robbery of a drug store in that city in which \$200 worth of cocaine, morphine and opium was stolen. A large part of the drugs taken from the store were recovered at the time of the arrest and sufficient evidence discovered against Troutman to warrant a belief that he, at least, was mixed up in the Burlingame robbery. Clues were picked up that led the officers to the tenderloin district of San Francisco, then to the house where the arrests were made.

The four were lodged in the Burlingame jail on suspicion of being implicated in the drug store robbery, but Tuesday morning Akridge was released. Later the other three were taken to the county jail at Redwood City.

RURAL SCHOOLS TO HAVE MUSIC AND DRAWING DIRECTOR

County Superintendent of Schools Roy W. Cloud has announced the appointment of O. M. Carrington as director of music and drawing in the rural schools of the county, a position which was created by the enactment of a bill at the last legislature. The supervisors have already authorized the purchase of an automobile to be used by the new director in his work.

Carrington has been the music and drawing teacher in the Sequoia union high school since 1908. He is a man of ability, possessed of a voice of volume and sweetness. He has given freely of his talents to all entertainments and to the various churches of Redwood City. In his new position he will visit the rural schools, thus enabling the students of those schools to obtain instruction in drawing and music, which they have heretofore been deprived of.

FAMOUS SWITCHING CASE IS REOPENED BEFORE COMM.

A hearing in the famous "switching case" between the South San Francisco Chamber of Commerce and the Southern Pacific railroad was held before the State Railroad Commission Monday, the case having been reopened on the application of the railroad company. A decision in this case was rendered by Commissioner Loveland May 13th. This decision the S. P. has protested. The zone system was established in the May order, but rates were cut to such an extent that the Southern Pacific alleges the new rates are confiscatory.

In Monday's hearing on reopening, Elmer Westlake, for the Southern Pacific, argued that tariffs submitted by the company last fall were reasonable and made on a scientific basis, and should be sustained. Arthur Roehl, for the protestants, asserted that the utility was trying to usurp the functions of the commission.

San Francisco and Oakland Chambers of Commerce joined the protest, and were represented by counsel.

C. OF C. TO DISCUSS HIGHWAY PROJECTS

Supervisor Hickey, Daly City Trustees, Crocker Estate and Cemetery Heads to Get Special Invitations.

Plans for the reception of the "flying squadron" of B-B boosters from San Francisco to arrive in this city Thursday were formulated at the meeting of the Chamber of Commerce held at the city hall Tuesday evening. It was a well-attended meeting and much interest was shown in the visit here of the San Francisco boosters who are now making trips into many sections of the district around the bay, carrying the message of co-operation and the story of the great advertising campaign to be launched by San Francisco for the whole of central and northern California. It was decided to entertain the visitors at a dinner at the Industrial Club at 6:30 p. m. There will be about fifteen members of the "flying squadron," and each will be the guest of a member of the Chamber of Commerce personally.

Following the dinner a meeting will be held at the city hall, which the public will be urged to attend. The message that will be conveyed by the "live wire" speakers will be of interest to all.

It was decided that the next meeting of the Chamber of Commerce will be given over to a discussion of the project to construct a connecting link between the Bay Shore highway and the state highway near the cemeteries and to straighten the Bay Shore road. The route of the connecting road as planned is along the north side of South San Francisco. A special invitation to attend this meeting is to be extended the mayor and city trustees of Daly City, representatives of the Crocker estate, and managers of the different cemeteries. Supervisor Thomas L. Hickey will be invited to take part in the discussion.

A communication was received from the United States Chamber of Commerce, stating that its representative would be in this city soon in charge of a party of 200 young men and boys who are traveling as its guests, and asking that permission be secured to inspect local factories. The secretary was instructed to secure such permission, which it is believed will be gladly given.

It was brought out that the Postal Telegraph Company has indicated its intention to make connections with this city and probably establish an office here. The secretary was instructed to write the Postal company and assure it that every effort would be made by the Chamber to help it get established here.

LEGION, DALY CITY CROSS BATS SUNDAY

Daly City lost to the American Legion ball team last Sunday in a battle on the South San Francisco grounds. The game was strongly contested to the last. The two home runs of the game are credited to Fourcans and Bollini, Legion players. "Frenchy" Fourcans has a habit of hitting home runs, but last Sunday he distinguished himself by placing the ball over left field fence. If he continues hitting in this manner, "Frenchy," as an appellation, will be dropped in favor of "Home Run" Fourcans. Credit must also be extended to Bisset for his almost impossible catches. Art Steele's big league pitching struck them out in one, two, three order. He allowed only four two-base hits during the game. The score stood:

RICE MILL EMPLOYEE DIES IN SAN FRANCISCO HOSPITAL

R. W. Smith, an employee of the Growers' Rice Mill in this city since its establishment here, died in the St. Francis Hospital in San Francisco Thursday of last week. Death came shortly after Smith underwent an operation for appendicitis. Mr. Smith had charge of the finished rice and its shipping at the mill. He lived at 205 State street, San Mateo. Funeral services were held from the late residence Monday morning, with burial at Woodlawn Cemetery.

FIRE ALARM SYSTEM PAID FOR IN ONE YEAR BY LOWERED INSURANCE RATES

The prompt and efficient sounding of fire alarms is only one of the services that the new electric fire alarm system is rendering South San Francisco. One of the greatest advantages secured is the lowering of rates on fire insurance. By the new rates just announced for this city by the Board of Fire Underwriters about \$10,000 will be saved each year from now on in fire insurance premiums for the property owners here. As this is practically the amount the fire alarm system cost the taxpayers of the city, it will readily be seen that the system is proving a splendid investment for local property owners and will pay for itself in a single year in the money it saves those who are carrying fire insurance.

ETIENNE FOURCANS NOW HEAD OF LEGION POST

Smoker Is Planned for Next Friday Night at Officers' Installation.

Metropolitan Hall, if available, will harbor a throng of ex-service men a week from tonight, when a smoker will be given by Bernard McCaffery Post, American Legion, in connection with the installation of officers. The entertainment card will include everything from boxing to pinocle and from music to "mess-call." Also a growl or two will be expected from the indispensable hot dog. Members are requested to leave side-arms at home, since all guns will be collected at the door by the sergeant-at-arms, who is elected "bouncer" for the occasion.

Officers elected last Friday night are: E. Fourcans, commander; O. Bisset, vice-commander; F. Dominy, second vice-commander; W. Hyland, adjutant, and C. Thomas, sergeant-at-arms.

The meeting brought out the fact that the donations contributed by fans at the first Legion baseball game of this season toward the Fremont Post Hospital Fund for disabled soldiers, totaling \$30.66, have been received and gratefully acknowledged by the hospital welfare committee of Fremont Post at Palo Alto.

Another point of interest was revealed by a communication stating that German-made moving pictures are now being imported and are underselling those made in this country and that, since the control of the moving picture industry means the control of one of the greatest molders of public opinion, steps are being taken by the American Legion toward the enactment of congressional legislation as a prevention to possible destruction of the American moving picture industry.

RETURN FROM TWO WEEKS' TRIP TO THE GRAND CANYON

Al Kauffmann, Walter Roberts of this city and Mr. Cline of San Francisco returned Sunday from a fifteen days' motor trip to the Grand Canyon. The party covered 2660 miles on the trip, traveling in Mr. Kauffmann's new Franklin. The route was laid through Bakersfield and Barstow, and returning more to the south through the town of San Bernardino, then to Los Angeles, where several of the beach towns were taken in. Needles was passed while the Colorado river was rising at the rate of an inch an hour, and the party barely got through. Mr. Turner of Los Angeles, brother of Mrs. Dave Martin, returned with them from the Grand Canyon. They report about 3000 people in the canyon and living accommodations difficult to get.

SAN BRUNO MAN ARRESTED FOR FAILURE TO PROVIDE

Arthur Jobson of San Bruno was arrested Wednesday by the police of Oakland upon the request of Under Sheriff H. W. Lampkin, following the issuance of a warrant for his arrest on a charge of failure to provide for his two minor children. Late Wednesday afternoon he was brought to the county jail in Redwood City by Deputy Sheriff T. C. McGovern.

Jobson came to San Bruno about a year ago with his two small children, a girl aged 9 and a son aged 8, following the death of his wife in Michigan. The two children were placed

in the care of a San Bruno woman to whom Jobson agreed to pay a monthly amount for their support. The board bill grew to \$140, and Jobson failed to pay. Not being able to support the two children, the woman turned them over to the County Social Service Commission and they were taken to the Juvenile Home in Redwood City.

HIGH JINKS HELD BY SCIOTS OF COUNTY

125 Masons of County Lodges Become Members of San Mateo Pyramid.

High jinks reigned at Masonic Temple, San Mateo, last Saturday evening, when 500 members of the Ancient Egyptian Order of Sciots assembled at the first great ceremonial of San Mateo Pyramid and gave the initiatory rites of the order to 125 Master Masons from different San Mateo county lodges. Besides the members of the local pyramid, delegations were present from Palo Alto and San Francisco pyramids to help along the jollification. Supreme Chancellor Wallace Thompson of San Francisco was one of the visitors. Toparch E. P. Kauffmann, head of the local pyramid, presided.

A show of first-class vaudeville features was put on by professional entertainers from San Francisco before the initiatory rites, and the evening closed with a great spread in the banquet hall.

The next important event on the calendar of the Sciots of San Mateo Pyramid is to be a grand ball at Masonic Temple, San Mateo, the evening of July 9th. All Sciots, Master Masons and members of the Order of the Eastern Star in San Mateo county are being invited, and it is expected that a large gathering will result at this, the first ball given by local Sciots. A big whist party at the temple is being planned for those who do not dance. The following compose the dance committee: J. B. Gordon (chairman), George Munro and Fred Beer, all of San Mateo; Charles McCracken of Redwood City; L. G. Clark, Ferd Prince and S. L. Hawkins of Burlingame; R. C. McArthur of Daly City, Robert Speed of South San Francisco.

LADIES' AID HONORS MRS. STEARNS AT LUNCH

A luncheon was given in the parlors of St. Paul's Methodist Church Wednesday noon by the members of the Ladies' Aid, Mrs. D. N. Stearns being the honored guest. Mrs. Stearns expects to leave this city soon to make her home in Santa Rosa, and the affair was planned as a surprise farewell party. About thirty members of the Ladies' Aid were present. During the lunch Mrs. Stearns was presented with a handbag. Mrs. I. M. Dotson making the presentation speech, expressing the appreciation of the Ladies' Aid for Mrs. Stearns's services in the past and wishing her success in her new home. The recipient of the gift, though somewhat overcome by emotion, made a fitting reply.

NEW EQUIPMENT AT LAUNDRY.

SO. S. F. DAIRYMAN IS KILLED BY STREET CAR

P. Morazzini Suffers Fractured Skull and Ruptured Blood-Vessels of Brain When Struck by Car.

"The deceased came to his death through rupture of the blood-vessels of the brain caused by being struck by a United Railroads street car." This was the verdict rendered by the coroner's jury sitting Wednesday morning at the Neri undertaking parlors to inquire into the death of Pacifico Morazzini of this city, who was killed here Monday evening.

The way in which Morazzini came to his death, as brought out in testimony introduced at the inquest, was substantially as follows:

Morazzini kept a dairy in this city, and Monday evening after delivering milk was on his homeward way, when he stopped his wagon in front of Cassino's vegetable store on Grand avenue. While standing there, the horse became frightened at an approaching street car. Morazzini ran in front of the animal and took it by the bit in trying to quiet it. During the struggle the horse pushed him on the track and the corner of the car struck him, hurling him to the pavement. He was rushed to the South San Francisco Hospital, where he died about four hours later. He had sustained a fractured skull and ruptured blood-vessels of the brain. Following the accident the motorman, Arthur J. Bloomfield of San Francisco, was placed under arrest for manslaughter, and his testimony was not taken at the inquest. His preliminary hearing is being held this morning (Friday) in Judge E. E. Cunningham's court.

Pacifico Morazzini was 56 years old at the time of his death. He had lived in South San Francisco for fourteen years and owned several pieces of property in this city. He leaves a widow, Anita Morazzini, and six children, Mary, Mariano, Teresa, Borba, and Jennie Morazzini and Mrs. Virginia Caccioli. He was a native of Italy. The funeral was held Thursday morning at the late residence, 424 Baden avenue, this city, in charge of S. Neri. Mass was said at All Souls' Church, following which interment took place in Holy Cross Cemetery.

Mr. and Mrs. Henry Haaker and little son, Lee, will leave today (Friday) for Boulder Creek, where they will spend the month of July.

BOLD ROBBERY AT SWEITZER HOME WED.

Thieves Enter in Broad Daylight and Take Cash, Jewelry and Clothing.

One of the boldest robberies that has occurred in South San Francisco for some time took place at the home of R. W. Sweitzer, 458 Grand avenue, early Wednesday afternoon. The thief or thieves secured about \$17 or \$18 in cash, jewelry of a value of about \$175, and several articles of clothing. Entrance was gained through a rear screen door, the screen being cut to allow the passage of a hand to raise the hook, and an inner rear door, which bore marks of having been forced open.

The robbery occurred between 1 and 3 o'clock in the afternoon. At the former hour Mrs. Sweitzer left for San Francisco, after having locked the house securely. At 3 o'clock she returned and found the back doors open and clothing and household effects thrown about the floors. A peculiar feature of the case is that some sterling silver tableware, though in plain sight, was untouched, and about \$20 worth of war savings stamps had been thrown on the floor and left. Though a commercial value of about \$175 has been placed by Mr. and Mrs. Sweitzer on the jewelry taken, as a matter of fact several pieces were family heirlooms that have a sentimental value beyond price.

That the thief or thieves worked like professionals is proved by the fact that, although the Sweitzer house stands close beside that of a neighbor, the occupants of the other dwelling neither saw anybody around the Sweitzer home nor heard any noises there during the hours Mrs. Sweitzer was away. No clue was left to serve in identifying the guilty person or persons.

NEW ORDINANCE LIMITS TRUCK LOADS

SIX HUNDRED POUNDS FOR EACH
INCH WIDTH OF TIRE FIXED
AS LIMIT; ONLY ONE TRAILER
IS TO BE ALLOWED.

A new ordinance governing the weights of loads that may be carried over the highways of San Mateo county was adopted by the supervisors at an adjourned meeting Tuesday morning. The ordinance, which was prepared by District Attorney Swart, amends Ordinances Nos. 307 and 309 and limits the loads allowed to be carried, including the weight of the vehicle itself, to 600 pounds upon every inch of width of tire, the width of the tire being determined by taking the measurement of the channel base of the wheel carrying the tire.

The ordinance fixes the maximum weight in tonnage allowed on the Halfmoon Bay to San Mateo road, including the weight of load and vehicle, to nine tons, and on the La Honda-San Gregorio road, seven tons. All other roads in the county, the weight limit is fixed at eight tons.

Only one trailer is allowed for each vehicle, the weight of trailer and load carried thereon being limited to six and one-half tons.

On the roll call adopting the ordinance, all the members of the board voted "yes," with the exception of Chairman Thompson. In voting on the proposition, Chairman Thompson said he believed in the county building roads for the farmers so they can get their products on the market, and not for scenic purposes.

New County Fire Warden

Bert L. Werder of Redwood City was appointed county fire warden for San Mateo county by the board Tuesday. He will work only when his services are needed and will receive a pay of \$6 per diem. Werder was present at the meeting and took up with the supervisors the matter of arranging for the necessary equipment for fighting grass and brush fires.

DALY CITY AND SO. S. F. WOMEN GET DIVORCES

One woman from Daly City and one from South San Francisco obtained interlocutory decrees of divorce in the superior court at Redwood City Tuesday. In each action the defendant allowed the case to go by default. Grace Forgey of Daly City charged Harry J. Forgey with neglect and failure to provide for herself and minor child. She was granted an interlocutory decree, custody of the child, and \$30 per month for its support, together with \$60 for counsel fees. Mrs. Forgey was represented by Attorney J. G. Reisner of San Francisco.

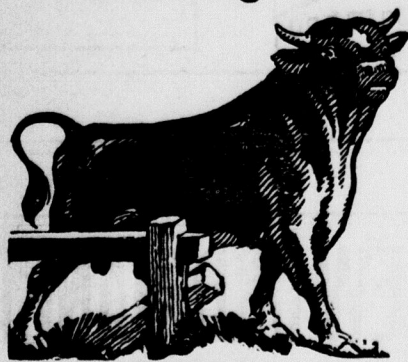

Mrs. Mary Sciacca of South San Francisco charged Edward Sciacca with cruelty. She was awarded the custody of two minor children and \$40 per month for their maintenance. She was represented by Attorney L. H. Honey of San Francisco.

WESTERN MEAT HEAD OFFICES NOW AT PLANT

The long-looked-for move of the head offices of the Western Meat Company from San Francisco to the plant in this city has become an accomplished fact. Saturday and Monday saw the move consummated, and the big Welfare Club building at the plant, which formerly housed the club alone, is now a hive of industry, housing both the club and the big office force of nearly 100 persons. When the move was first talked of the construction of a new office building was considered, but later it was decided to enlarge the building used for the club, which is composed of plant employees.

Practically all the office departments of the great institution, one of the biggest packing companies on the Pacific Coast, are now established at the plant. Several of the office employees have already secured houses in this city, and more have signified their intention to move here as soon as houses can be secured.

OWE OR OWN.

(By F. D. E.)

I must confess I'd rather dress
In overalls and blouse,
Than run in debt for what I get,
And mortgage shop and house.

I'd rather choose some common shoes,
Sufficient old and wide,
To fit my feet, though not so neat
Than gratify my pride.

I'd rather strive to keep alive
On good corn bread and beans,
Than live so high on cake and pie,
And go beyond my means.

I'd rather own a hut of stone
Than owe for mansion grand;
I'd rather pay my honest way,
Than owe for house and land.

I'd rather dwell in lonely dell,
In shack my funds can buy,
Than live in style in house of tile
And owe for living high.

A "good hater" is never a good
worker.

THE CAVERNS OF LURAY

IN THE midst of the broad winding valley of the Shenandoah River—the "Daughter of the Stars" as the Indians called it—in northwestern Virginia, flanked on the east by a line of mountains known as the Massanutts and on the west by the main chain of the Blue Ridge range, is the quaint, oldish town of Luray.

Ten miles west is Cave Hill, under which is one of our great natural curiosities—the Luray Caverns, to which have come to wonder, study and admire, scientists, explorers and tourists from every quarter.

Here the mysterious workings of nature have produced a veritable underground fairy palace, with miles of passageways lined with an infinite variety of curious, gigantic and wonderful formations. Almost every object of nature seems to be reproduced with surprising reality. The indescribably fantastic groupings of the weird and grotesque formations, the beauty and the coloring of the titanic tapestry effects and the translucent and symmetrical arrangement appear to be the handiwork of nature in a playful mood.

One chamber measures almost 400 feet in length by 125 feet in width. Others possess lofty, arched and elaborately ornamented domes. A most marvelous formation bears strong resemblance to a gigantic pipe-organ. When struck, these "chimes" give out, low, sweet, full notes which re-echo rather spookily through the surrounding caverns.

This cavern is brilliantly electric lighted, surprisingly free from dampness—in fact the atmosphere is pleasantly delightful, the normal, year-round temperature is about 54 degrees and the journey through it an entirely new and novel and unusual sensation.

Spilling for Fun.

"How is the traffic system in this town?"

"Like the traffic system of every other town."

"Well?"

"A constant irritation to motorists who want to monopolize the streets and lose their tempers every time a large, imperturbable trolley car gets in their way."—Birmingham Age-Herald.

Bad for the Rabbit.

The conjuror in the village school-room had invited any gentleman from the audience to step up on the platform, and a rustic in a velvet coat had responded.

"Now, friend," said the conjuror, "I suppose you consider it a matter of impossibility for me to make the rabbit in that box on the table pass into your coat pocket?"

"I dunno about impossible," was the reply, "but I wouldn't do it if I were you, sir."

"Oh, you'll be in no danger, I can assure you," said the sleight-of-hand man airily.

"I won't think about myself," the rustic answered calmly. "I was studying the rabbit. I've got a couple of ferrets in my pocket!"—Edinburgh Scotsman.

A Jubilant Jubilee.

"Some years ago," says an American who used to live in London, "before Queen Victoria's death and about the time the queen's jubilee was to be celebrated, there was overheard this conversation between two old Scotchwomen on a street corner:

"Can ye tell me, wumman, what is it they call a jubilee?"

"Weel it's this," said the other. "When folk has been married twenty-five years, that's a silver wuddin'; and when they have been married fifty years, that's a golden wuddin'. But if the mon's dead then it's a jubilee."—Philadelphia Public Ledger.

Mr. and Mrs. C. W. Meyer are the parents of a new baby boy, who arrived Tuesday afternoon. The youngster weighed nine and a quarter pounds, and on his arrival promptly gave evidence of having a lusty pair of lungs. Mrs. Meyer is the daughter of Mr. and Mrs. J. Eikerenkotter.

JOHN ALMEIDA DIES.

John Almeida, for nearly twenty years a resident of South San Francisco and well known here, died Saturday of tuberculosis. The funeral took place Monday from the Nieri undertaking parlors, with burial at Holy Cross Cemetery. Almeida was 41 years old at the time of his death. He was a native of St. Michael's Island near Portugal.

DRESSES OF TWO MATERIALS

Combinations Are Holding Their Own; Featured in Sports Clothes of Which the American Woman Is So Fond.

Under southern skies, at the southern resorts, is the place to see the new summer clothes worn, and wherever we go there, in search of fashion's inspiration, writes an authority on styles, we are greeted by organdies and voiles, taffetas and summer silks—anything that is light in weight and transparent in texture. From the look

of the new, thin frocks one imagines that the old-fashioned style books have been combed and everything of a mediocre type discarded without further notice, for we are confronted with only the best, the most exquisite, the simplest and the most picturesque of designs. One sight of the clothes in a shop here and a wild desire seizes one to take the first train for the South in search of an opportunity to wear some of these lovely things.

It is necessary for us here to wear furs and woolen wrappings, but many are the fortunate ones who are migrating to a gentle climate, and they are busily buying outfits directly the opposite of the heavier coverings. How refreshing it is to enter a shop and see displayed all those fresh and dainty garments while imagination supplies the necessary surrounding. There comes a picture of the southern sea with its beach dotted by colorful clothes all made according to the latest dictates of a fashion decree.

Dimities and organdies and printed muslins are the thin things for dressy occasions that have received the greatest amount of attention. And they are not only for the time being. They are setting a pace for our own summertime later on; any innovation now advanced is one that carries weight, for it may be the thing that will rule the fashions of our coming summertime. They cannot be ignored, these southern fashions. Even if one is not among those who are to wear the newest things at once, still they hold their interest as an indication for dresses to come. Many are they, too, who take advantage of the chance to be beforehanded and have their summer things made up at this time of the year. Now there is the most varied choice of new cottons and silks. Later they will be picked over in the stores and not nearly so great a variety will be available. Now one can attend to fittings and designings without being prostrated by the heated blasts of late spring and summer days. One's mind works more freely and is more subject to the inspiration supplied by the fresh new things being displayed around every corner.

Materials Are Numerous. The materials allowed for smart summer frocks are as numerous as the days of the summertime. There is no hard and fast rule about what shall be worn and what shall be taboo. Indeed, if ever there was a chance for latitude it is right here and now, and the individual may choose her clothes according to her own likings and desires with never a fear that they will be running far afield.

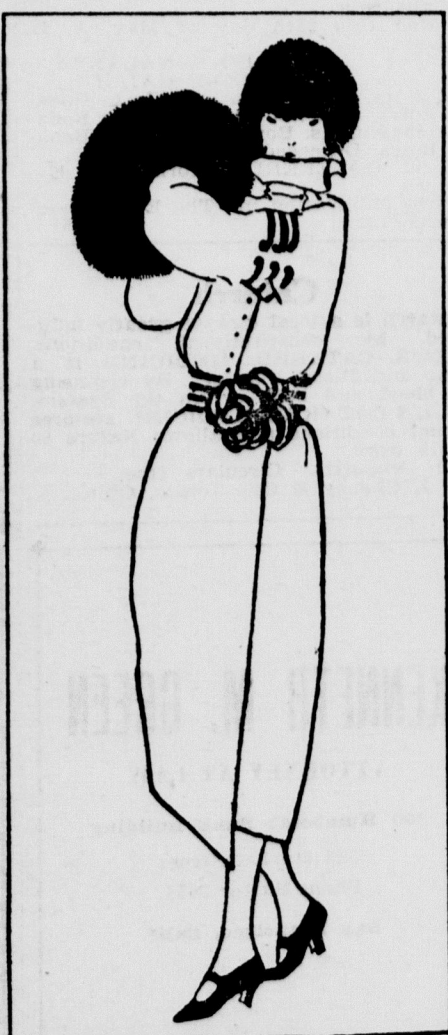

Organdie is perhaps the favorite of all the thinner materials only because it is so very becoming to almost every type of womanhood and girlhood, and childhood, for that matter. A few years ago it started to rise in popular favor, and its growth in popularity has been a steadily increasing thing. The colors are what make it so extremely attractive, for they have reached the maximum of perfection. The shades are as scintillating as so much pure color, and the fact that the thinness of the fabric helps to catch and reflect the light is something that is charming in itself. Nothing can set up competition with it. It is safe and sound and unassailable, right there on its own platform.

Some of the organdie frocks are made quite elaborately, while others are most simple and unpretentious in construction and workmanship. One of the more intricate models is made of a sort of maize colored organdie, trimmed with inserts of the same color and material made in fine pin tuckings. These shapes are oval, are inserted at intervals on the full skirt and are outlined in bands of lace insertion shaped to conform with the outlines of the oval motifs. The lace is cream colored and adds the only note of relief from the predominance of the maize color. Another organdie model has a skirt with narrower ruffles extending all the way and in close succession from the hem to the waist. A panel just in front is made of the organdie unadorned by ruffles, and there is a finely tucked vest, with a sort of an apology for an eton jacket. There is a velvet ribbon girdle of dark sage green, while the organdie in the gown is of that light and singing green.

Then there are the dotted swisses—sisters to the organdie family. They have dots of color and dots of the same shade as the foundation material, dots that are large and dots that are small, dots that are separated by many inches from each other and dots that are close together. Each new arrangement of the little dots gives a whole new appearance and character to the fabric, and each new handling by a designer gives a new touch that makes the frock stand out as something quite exquisite and fresh among all the others. On the new summer frocks there are overskirts a-plenty, and there is one of jade dotted organdie made in a sort of princess line with side panels that are full and make an effect like an overskirt. The only trimming on this gown is an edging of maize organdie laid on in a two-inch double fold and outlining the edges of the overskirt, the neckline and the bell-shaped sleeves. It is an attractive color combination and a new idea in the use of a combination of dotted swiss and plain organdie.

A dimitie frock is an indispensable part of any of the present summer wardrobes, for this fabric has been perfected in a most remarkable manner both as to dye and weave. It has a distinct character of its own. One of these in a bright pink cross-bar is made with a full skirt that has tiny flutings of the frock's material running up either side from the hem to the waistline. It has a wide and rounded sash edged by the same sort of flutings, and the bodice is made quite snugly fitting, with the same little plaittings running about the edges of the neck and sleeves.

There are the sports clothes of which particular notice must be taken, because they do constitute so large a part of our dressing as a whole. They are the foundation of any outdoor outfit, and so great a variety is offered for their choice that it is almost necessary to know just which things are best and which are only nearly best. The sports suit of heavy or light homespun is always good, and this season more particularly than

Design for Navy Blue Coat Dress in Blue, Cleverly Embroidered With Touches of Red.

ever because so many smart women have adopted it as a part of their outfitting, whether for the city or the country.

One of the latest ideas in an informal outdoors suit has a skirt made of a French material that is a red pique weave with a plaid of black stripes making its pattern. It is a

most effective piece of material and hangs into the folds of the skirt with the utmost ease and adaptability. Then the loosely fitting very dark blue serge jacket is a proper complement to the vividness of the skirt. This combination promises to be one of the popular ones for spring, for it is one of the most exclusive that has been chosen for exploitation at southern resorts.

ROSES REQUIRE DRAINAGE AND PLENTY OF FERTILIZER

Cut-flower roses thrive in a well-drained soil that is not too dry and is well supplied with organic matter.

The hybrid perpetuals succeed best in clay loam or in a soil with a clay subsoil, but not so well in gravel soils. Many of the tea roses and their hybrids succeed in very light lands if well supplied with organic matter and water, although the ideal soil is a loamy one. A well-enriched soil and one reasonably constant in its ability to supply the plant with moisture is the chief requirement. On the other hand, it must be well drained, as roses will not grow when water stands about their roots.

In heavy clay soils or wherever water is liable to stand it is desirable to provide artificial drainage. This is best done by excavating to a depth of

three feet, placing a 12-inch layer of stones in the bottom, covering these with inverted sods, and then refilling the bed with well-prepared soil. This layer of drainage should be connected with some proper outlet for carrying off the water. A drain of a similar layer of stones one foot or more wide, or a tile, should lead to some main drain, a sewer, or to an opening on lower land, so that surplus water will be carried away immediately. In well-drained soils such special precaution is not necessary. Sometimes the layer of stones, without the outlet drain, will be sufficient.

Rotted cow manure is the best fertilizer for roses. Any other well-rotted manure or good compost will serve the purpose. Fresh manure, especially horse manure, is to be avoided. If no other manure is available, it may be used, but it must neither come in direct contact with the roots when planting, nor should it be used immediately beneath the plant in quantity sufficient to cut off direct connection with the subsoil and the water supply.

Of the commercial fertilizers, ground bone is excellent to add to the food supply, but will not answer as a substitute for plenty of compost. Where it is cheap enough, cottonseed meal may be used as a substitute for bone. Wood ashes are sometimes a

helpful addition, or when they are not available lime and muriate of potash, applied separately, may be used. Sandy soils need more frequent applications of manure than heavier soils, as the organic matter burns out more rapidly in them and must therefore be

replenished more liberally.

NO ROOM FOR CRITICISM

In the city of London there are hundreds of thousands of people unemployed—five million of them in Great Britain. Empty stomachs are as numerous as the leaves upon the trees.

One section of London is gaunt and filled with misery. There is no work, no money, and but little bread. In another section—the center of aristocracy and fashion—gayety reigns supreme. Immense sums of money are spent on the pleasures of a single night. It flows continually in the production of social excitement. There is no want, no hunger, no lack of bread there.

But are we Americans in a position to criticize England's aristocracy for its frivolity in the face of unemployment and misery? We are not. Millions of people are out of employment in this country. Our cities swarm with homes where the larders are empty and little stomachs are more so.

Yet in Atlantic City a prize fight is to be pulled off between an American and a Frenchman. Men will journey from every state in the union to see that fight. They will pay from \$10 to \$1000 a seat to see two men beat each other up. A broken nose smeared with blood will elicit no feeling of pity or concern—only howls of joy or chagrin.

There will be no empty stomachs at that fight. No little children crying for bread will witness that gory contest of brutality. The money spent for the privilege of seeing that fight would furnish a royal feast for all of the people in the United States who now hunger for bread. Instead, it will not allay the sufferings of one.

No, we are in no position to criticize the English, or any other nation of people, so far as squandering our substance and neglecting our unemployed are concerned.

A new liquid gas has been discovered so powerful that three drops falling on the skin will kill a person in thirty seconds, thus making it possible for a hostile aeroplane to blot out entire cities. In the event of another war look out for that grand rush "back to the farm."

Intelligent people emphasize their quality by the use of simple language. It is only the weak minded who wrap their tongues around words of which they know not the meaning.

A woman's instinct is so keen she can invariably detect flattery from the genuine article, but it often keeps a fellow guessing to know which she prefers.

CHINESE GARDENER SWEARS TO WARRANT FOR HIGHBINDERS

Fong Tong, the Chinese gardener employed on the Mares ranch at Belmont, who had the amazing experience a week ago of having his trousers removed as clean as a whistle by bullets from the revolver of two highbinders, members of a rival tong, appeared before Justice of the Peace Ray Griffin at Redwood City Wednesday and swore to a complaint charging Tom Fat Lum and Wong Yong Kwei with assault with intent to commit murder. The warrant was turned over to Under Sheriff H. W. Lampkin, who will make an effort to apprehend the men.

Fong has gone back into hiding, where he expects to remain until the two gunmen are safely behind the bars.

Co-Operation Between the Public and the Public Service Industry

SUPERIOR SERVICE AT A REASONABLE COST is the paramount aim of public service companies today. Upon the accomplishment of this aim rests the success and continued well being of the companies that render public service and the satisfaction of the public they serve. The public service companies, their property and personnel are dedicated to the high ideal of progressively better service to the public.

This recognition by the public service companies of their proper relation to the public imposes upon the public an equally compelling responsibility to deal fairly with the companies that minister to the public welfare and to approach any questions in which their common interests are involved in a spirit of open-minded fairness as between man and man.

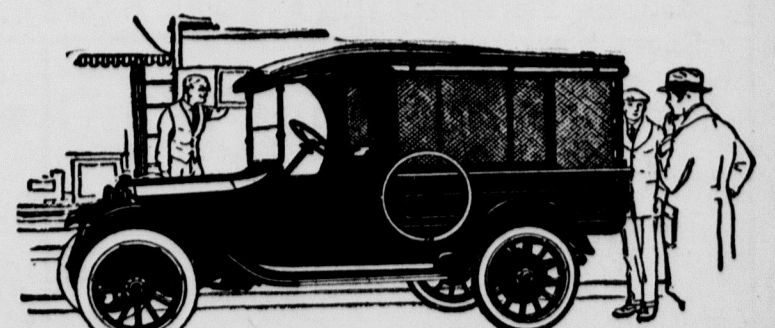

It is only by such mutual regard for the rights of each other that the best interests of both can be properly safeguarded and the causes of distrust and even of open enmity be avoided. There can no longer be any divergence of interest between the people and the companies rendering public service.

DESSIN BROTHERS
Burlingame, Calif.

A Joke That Recolled.

A young man was walking up and down the platform of a country railroad junction in England trying to see a car that had a vacant seat. He didn't find it, and assuming an official air, he walked up to the last car and announced in stentorian tones: "All out here; this car isn't going." There were exclamations loud and deep from the occupants of the car, but they all piled out and made their way to cars ahead. The smile on the young man's face increased as he took possession of a seat and appropriated another for his luggage. "Ah," he murmured, "It's a grand thing to be born clever! Now I wish they'd start." By and by the station master put his head in the door. "Are you the smart young man who said this car wasn't going?" "Yes," said the clever one, smiling. "Well," said the station master, with a grin also, "it isn't. The brakeman heard what you said, and he uncoupled it. He thought you were a director."—Pittsburg Chronicle-Telegraph.

"Look, mother," wailed Ned, pointing to a hole in the stocking. "I've had a blow-out!"—Motor Life.

This week has again seen on the state highway much reckless driving, which has resulted in the death of one or more people. Joy riding accompanied by drinking is directly responsible for these tragedies.

During this week the Rev. Del Norte Winning, pastor of the M. E. church, resigned his pastorate in order that he might take up post-graduate work. His loss will be keenly felt by his church and the whole community. The Rev. Mr. Bodley will assume charge of the M. E. church until the next conference meets and appoints a minister.

Early Wednesday morning the captain of the park police station phoned Mr. Grundy that they had recovered the machine and that it was awaiting his instructions. Mayor Grundy, as was natural, was delighted at getting his car back, and he wishes to thank the police force of San Francisco for their valuable services on this occasion and to express his admiration at the efficiency displayed by them.

RECALL PETITION IS FILED WEDNESDAY

Document With 176 Signatures Given to City Clerk; City Market and Street Paving Cited.

The "recall petition" which has been circulated through San Bruno for several weeks past, was filed with City Clerk Nettie Willits Wednesday. The petition asks a special city election for the recall of Mayor A. S. W. Grundy. The document has 176 signatures appended. It will be the duty of the city clerk to verify these signatures before presenting the petition to the board of city trustees. The reasons for the proposed recall are set forth as follows:

"Because after voting for an ordinance passed by a majority of the board of city trustees creating a municipal market, said trustees did not give any accounting to the public and did not have any record made in the city's books of moneys collected and did not give any accounting of receipts and disbursements. Because he, with two other members of the board, raised the assessed valuation of property in San Bruno 60 per cent, thereby making the assessed valuation very much higher than the property can be sold for. Because he, with two other members of the board of trustees, levied an arbitrary assessment for the purchase of the crippled and dilapidated water plant known as the San Bruno Water Works, and refused to submit the matter of the purchase to a vote of the people. That he, with two other members of the board of trustees of said city, put through and passed proceedings for paving the streets of San Bruno Park and San Bruno First Addition without giving an estimate of the cost of the work, thereby leaving it to the engineer and contractor to determine what the costs should be. Also because, in the matter of street pavements, he voted for and decided upon a substitute pavement known as asphalt concrete, instead of a four and one-half-inch concrete base and an asphalt top, as petitioned for by the residents of the above-named sections."

LAWRENCE KNOLES WEDDED TO S. F. GIRL IN SAN JOSE

The young people will spend a short honeymoon in Bakersfield and other points in the southern part of the state.

DADDIES CLUB TO ENTERTAIN SAN BRUNO BOYS EACH MONTH

Monday night, July 18th, the Daddies' Club intends inviting all the boys of San Bruno between the ages of 12 and 21 to a gala entertainment at California Hall, on which occasion a special program of events will be given. Refreshments will be served and nothing left undone to give the youngsters a thoroughly good time such as all healthy and red-blooded boys enjoy. This entertainment will inaugurate a series of such monthly, all of which will present an entirely different program.

His Easier Method.

He tapped on the back door and asked for something to eat. The good housewife replied that she would feed him if he was willing to earn the meal by cleaning out the gutter.

The tramp agreed, and when he had eaten his way through several sandwiches she came out with a reliable-looking hoe.

"You needn't have gone to that trouble, madam," said the weary one, sizing up the farm implement. "I never use a hoe in cleaning out a gutter."

"Never use a hoe!" said the woman. "What do you use, then—a shovel?" "No, ma'am," replied the tramp, starting for the gate, "my method is to pray for rain."—Pittsburg Times-Gazette.

Eloquence Plus.

"I don't believe the negro race is naturally eloquent," remarked the northern visitor.

"Sir," replied the old-fashioned Southern gentleman, "you have probably never heard a colored bootblack addressing a few appropriate remarks to a pair of dice."—Birmingham Age-Herald.

WHO'S WHO.

When you have business to transact your mind is more at ease and you feel relieved to know that the other party has a clean record and will treat you right.

In making the announcement of his entering the real estate and insurance business, the undersigned would respectfully call the public's attention to the fact that he has a clean record. His bitterest enemies have attested to that. For, try as they may, and they left no stone unturned, they could find nothing whatever on us.

With this recommendation to back us up we solicit your trade, if you are looking for a square deal. We have building sites, acreage and houses to sell, and will treat you right. A small deposit will handle the deal. Call or write.
